

# ONE HUNDRED LIVES LOST IN THE EARTHQUAKE THAT SHAKES FRANCE

Fifteen Persons Are Killed at Lambeso, Ten at St. Cannat and Twenty at Rognes—Houses Are Razed and Many Towns Are Cut Off From Communication by Telephone or Telegraph—Thousands Sleep Out in the Parks—Relief Rushed in all Directions

Paris, June 12.—Dispatches received here from the south of France, where a series of earthquakes were experienced last night, say the shocks were felt in the coast departments from the Alps through to the Atlantic. The people everywhere were greatly alarmed, and the oscillations were sufficiently severe to displace masonry and in a few instances to shake down houses. Thousands of persons slept last night in the parks and on board boats. The shocks were followed by violent hailstorms.

Marseilles, June 12.—The early shock last night was most severe in the departments of Herault and Bouches du Rhone. There are fifteen dead at Lambeso, ten at St. Cannat and twenty at Rognes. It is believed that the total of dead will reach 100. The temperature has fallen sharply throughout this region.

Food supplies are being dispatched from Aix to the afflicted districts and two battalions of troops have been sent forward to aid in the work of rescuing the wounded from the ruins.

Many of the villages in the district are cut off from communication either by telephone or telegraph, but as the news that does come in here shows that the situation is worse than at first supposed, relief is being rushed in all directions.

At Puy Steparde, two persons lost their lives, and there was much destruction of property.

At Denelles, the church collapsed and a woman sixty years of age died of fright.

Lisbon, June 12.—There was a trembling of the earth here last night, accompanied by subterranean rumblings.

Avignon, France, June 12.—A battalion of sappers has been sent out from here on a special train to St. Cannat to render assistance to the earthquake sufferers.

## FINDS A FORTUNE IN AN OLD BIBLE

HIS SPINSTER AUNT HAD LEFT HIM THE BOOK.

He Threw It Into Old Trunk and Had Not Opened It Until Thirty-five Years Later.

New York, June 12.—When Stephen Marsh started for Denver yesterday, where he will make his home with a prosperous son, he had nearly \$5,000 which had come to him unexpectedly, and his conversion to a strong belief in the Bible. When his spinster aunt died thirty-five years ago, she left him only a Bible with the board backs fastened by a gold clasp.

Marsh was not of a religious turn of mind and cast the Bible into an old trunk where it remained untouched until yesterday, when he started to pack for his journey west. On opening the Bible, he found that, between the leaves, had been stored \$4,887.20 in paper money, much of it in fractional currency, on which there may be a premium now.

As Marsh had lived for many years on a pension of \$12 a month, the finding of the monetary means in his financial wilderness immediately converted him to a strong belief in the Bible.

## AUTOMOBILE BUSINESS IN FRANCE HAS DECLINED

New York, June 11.—A. R. Schwartz, foreign representative of an American automobile manufacturer, arrived here from Europe yesterday, and reported that the motor car business in France was in a deplorable condition. He said that because of the great overproduction of motor cars abroad, the manufacturers are literally begging dealers to dispose of their stock, and that many hundreds of cars are in storage.

Many buildings, which for years have been occupied by automobile dealers, he says, now bear the "for rent" sign.

Complained with the overproduction, Mr. Schwartz attributes the repressive action of the government, the police making as many arrests as possible and frequently for the most trifling offenses and the authorities assessing a tax of \$1 for each seat in a motor car and what amounts to practically a tax of \$2 for each horsepower. A thirty horsepower car with seven seats must pay a tax of about \$67.

WOLGAST KNOCKS OUT PEPPERS IN ROUND TEN

## OFFICER RESCUES MAN

Latter Becomes Dizzy Upon Reaching Top of Lofty Flagstaff

Meetonia, O., June 12.—Unknown persons blew up the First Presbyterian church in this village last night with a dynamite bomb that had been placed on a window on the north side of the edifice.

Rev. Joseph M. Grimm, the pastor, has taken an active part in fighting the liquor cases now on trial at this place.

This is the fifth attempt in the last day or two at dynamiting in this village, the others having been discovered in time to prevent any damage. Sheriff Davidson has put a large force of deputies to work on the case and arrests are expected.

## AMERICAN HORSES CONTINUE TO BE GIVEN AWARDS

London, June 11.—American horses continue to be given awards by the judges of the international horse show. In class 35, judging of harness horses, over 15 and not exceeding 15.2 hands, they took not less than five honors. Walter Winans Coker's Rosador and Prosperine were first; Judge Wm. H. Moore's Pandora and Cyrus were fourth; C. W. Watson's Lord Baltimore and My Maryland were fifth; Judge Moore's Thaddeus and Thebis were placed in reserve, and his Chiquita and Lady Seaton were commended.

In class 90, qualified hunters, four years old, or over, carrying from 168 to 196 pounds, Mr. Winans' Rosmoore was fourth. In class 82, ladies' hacks, exceeding 15.2 hands to be ridden by ladies, Mr. Winans' Beau Ideal was given third honors.

## PLAN TO CONTROL THE SUGAR INDUSTRY

CONCERTED MOVEMENT ON PART OF JAPANESE.

To Dominate International Affairs of Islands, Through Their Number and Power.

Honolulu, June 11.—Evidence that what the authorities claim is a concerted movement on the part of the Japanese of the Hawaiian group to control the sugar industry and thus dominate the international affairs of the islands through their number and power, was disclosed today when the officers of the "Jiji," a Japanese newspaper of Honolulu, and the offices of the Japanese Higher Wage association were entered, by officers armed with search warrants, and letters, reports and other documents seized.

Following the confiscation of the papers the application for a writ of habeas corpus entered in behalf of Makino, Negoro, and Soga, the three alleged leaders of the sugar plantation strikers who were taken into custody yesterday, was rejected by the court.

It is claimed by the authorities that the papers found, indicate that a conspiracy of a widespread nature has been formed among the Japanese of the islands to wrest the control of the affairs from the white residents and conduct the internal government in their own interests. The letters and reports found in the office of the Higher Wage Association, which, as indicated by its name, has the financial betterment of the Japanese laborers

as its object, are from the members and agents of the association in various parts of the islands. They express the belief that the strike of the Japanese plantation workers offers an opportunity for the Japanese of the islands, by virtue of their numbers to demonstrate their power to control the sugar industry, and, through it, the general affairs of the islands. The determination to so control, it is stated, is reiterated again and again in these documents.

An appeal to all Japanese, in the name of their native country, to aid in this movement, is said to be conveyed in the letters. The authorities are preparing complete translations of all the papers seized and it is stated that they will be used as evidence in support of many charges of conspiracy which it is declared will result from the disclosures.

While the court was deliberating upon the first habeas corpus petition, a crowd of a thousand Japanese gathered about the court house to await the outcome. The gathering was perfectly orderly in its deportment and vented its spirit in cheers for the prisoners whenever they came in sight.

A second petition has been filed by the attorneys for the prisoners but has not been acted upon by the court. The strike of the Japanese plantation hands has been in progress for over a month and is the most extensive walkout ever known on the islands. Between 5,000 and 8,000 Japanese are involved. The strikers demand an increase of from 69 cents to \$1 a day for field laborers and a proportionate advance for mill hands and other plantation employees.

## DEATH SENTENCE COMMUTED.

Havana, June 11.—President Gomez has commuted the sentence of death pronounced in April by court martial on Sergeant Francisco and Vincente Cortes, father and son, to penal servitude for twenty years. The men were members of the rural guards and were convicted of participation in the uprising in March.

## JESSE BUNKER IS KILLED BY LIGHTNING

HE IS YOUNGEST SON OF ONE OF SIAMESE TWINS.

He Was Prosperous, and Though a Deaf Mute, Was Intelligent and Entertaining.

Winston-Salem, N. C., June 12.—Jesse Bunker, a deaf mute, youngest son of Chang, one of the Siamese twins, was killed by lightning yesterday in his tobacco barn in Surry county. He and his son and workman took shelter in a barn during a rain-storm.

Bunker's hat and shoes were torn to pieces, but the body was not bruised or mutilated. The son and the workman were knocked senseless, remaining in this condition for an hour or more.

Bunker was 48 years old and prosperous. He was intelligent and entertaining and enjoyed conversing with his friends through the medium of pencil and paper. The Siamese twins married Virginia Allen. Their sons have all been well-to-do and prosperous men. The peculiar inheritance of deafness was an affliction that added an additional strangeness to the family. The mute was bright and quick of wit, though in each branch of the family there seems to have been more, or less, a freak of nature. The oldest boys of the Chang family have gone into the other sections.

## WELLS VALUED AT FOUR THOUSAND DOLLARS LOST.

San Francisco, June 11.—A robbery involving the loss of jewels valued at more than \$4,000 was made public today in a letter received by Chief of Police Cook from Halstead Lindsey of Telluride, Colo., who is associated with the Hong Kong and Shanghai bank of Yokohama. The letter states that just before the Pacific Mail steamship Manchuria sailed for the Orient on April 9 a pigskin jewel case containing a number of rings, brooches and other valuable articles belonging to Mr. Lindsey was stolen as they lay on the wharf. The loss was discovered after the vessel put to sea and a fruitless search was made. The San Francisco detectives were notified of the theft by a cablegram from Honolulu.

## KETCHEL WOULD LIKE JEFFRIES AS REFEREE

New York, June 11.—Stanley Ketchel would like to have Jim Jeffries

as referee for his coming fight with Jack Johnson, for the world's championship at Colma, Cal. The Michigan middleweight arrived here early this morning, from Philadelphia, with his manager, Willis Britt. Speaking of the statement of Jeffries that he would take on Ketchel for the championship, should he defeat Johnson, Britt said:

"I don't believe Jeff would want to fight Ketchel. Jeff's sole idea in returning to the ring, was to defend the title from Johnson, who claims it. I should like nothing better than to have Jeff referee the Ketchel-Johnson fight, and will accept him in a hurry if Johnson makes no objection."

## HABITS OF NEW YORK SCHOOL- CHILDREN ARE MOST DEPRAVED

New York, June 11.—"Like the depravity of ancient Sodom" is the way Dr. Alexander MacNicol tonight described the habits of school children in certain sections of New York.

In a statement regarding the children Dr. MacNicol said:

"Fifty-eight per cent drink some form of alcoholic beverage occasionally or at regular intervals; 37 per cent drink one glass of beer a week to five glasses of beer a day; 21 per cent drink wine or spirits. In some groups the percentage of occasional and regular drinkers run as high as 79; of these attending school, 46 per cent are backward in their studies."

## CHURCH IS BLOWN UP

Anti-Prohibitionists Are Supposed to Be the Guilty Parties

New York, June 12.—The versatility of the New York policemen was sensationally demonstrated last night when Patrolman John Whitman, popularly known as "Ajax, the Strong Man," because of his many heroic encounters with runaway horses, climbed the steel tower of the new Queensborough bridge, shinned up the swaying flagstaff and rescued Thomas Jones.

Jones had ascended to the gold ball at the very top of the flagstaff, 355 feet from the water, to string flags, in preparation for today's official celebration of the opening of the bridge. His leg was attacked by a cramp, the swaying pole in the heavy breeze made him seasick and he shouted for help hanging on to the gold ball for dear life and expecting to drop any minute to the mesh of steel girders below him.

"Ajax" Whitman was patrolling the promenade of the bridge near the tower, and heard Jones' cries. The policeman, who has half a dozen bravery medals, clambered up the steelwork of the bridge's superstructure and then up a lofty steel tower, more like a monkey than a human being. On reaching the base of the flagstaff, which is sixty feet high and a foot and a half in diameter at the base, Whitman called to Jones to hang on while he tore off his shoes and the next minute he was climbing the pole like a professional steeple-jack. On reaching the top he threw one arm about the dizzy Jones and then slid swiftly and safely down the pole. From there he carried him down to the steelwork.

## DISPATCHES SHOW ELEVEN PERSONS ARE DEAD

SEVERAL ALSO INJURED AS RESULT OF STORM.

Haskell and Lueders Were Places Also Damaged by Hail Storm.

Dallas, Texas, June 11.—Special dispatches from Texas points tonight, show that eleven persons are dead and several injured as a result of the storm in Central Texas today, including one man who was killed when a windstorm blew a Kansas City, Mexico and Orient passenger train from the Broeze river bridge, north of Sweetwater last night. Haskell and Lueders were places also damaged by the storm, which was accompanied by a fall of hail, destroying crops and orchards. Six are dead at Haskell.

Near Lueders, three persons were killed and several seriously injured. In the wreck of the train, J. E. Stanford, a traveling salesman of Crowley, Texas, was killed and eleven persons were badly hurt.

The whole train, except the engine and tender was blown from the track. Conductor Alexander and brakeman Van Zandt were among the most seriously injured.

Rapid City, S. D., June 11.—The second death in this vicinity as a result of the recent violent storms occurred today when Charles Miner, eight years old, the grandson of Postmaster Miner of Pactola, was struck by lightning and killed.

# RUSSIAN SUBMARINE TORPEDO BOAT SINKS IN STORM IN BLACK SEA

Twenty Members of Her Crew, Including the Captain, First Lieutenant and Chief Engineer Perish—Flotilla Is Conducting Series of Night Maneuvers When Kambala Collides With Another Vessel, and Goes Down Instantly

St. Petersburg, June 12.—The submarine torpedo boat Kambala, of the Russian navy, has been sunk in a storm in the Black Sea, while the boat was undergoing trials. Twenty members of her crew, including the captain, first lieutenant and chief engineer, perished.

Sebastopol, June 12.—The following details of the foundering at sea of the Russian submarine Kambala have been obtained here:

"The submarine flotilla was conducting a series of night maneuvers against the battleship squadron, with the idea of forcing an entrance into the harbor. During the operations, the Kambala, upon which was Captain Bielekoff, the commander of the flotilla, and in charge of the maneuvers, unaccountably left her course and swung across the bows of the battleship Rostislav. The two vessels collided and the submarine sank instantly in twenty-eight fathoms of water. The commander of the submarine, Lieut. Aquilonoff, was on deck at the time of the accident. He swam away and was saved, but Captain Bielekoff, Midshipman Tuckoff, a warrant officer, and seventeen members of the crew perished."

The Kambala—the word in English means Flounder—was of 180 tons and constructed on the German type.

An attempt will be made to raise the Kambala.

## LION ESCAPES AND CAUSES SERIOUS INJURY

Chicago, June 11.—A lion escaped from his cage at a local amusement park today and caused injury to three persons before he was recaptured. Howard E. Smith, an employee in the show of which the lion was a feature, had his arm broken while attempting to catch the beast, and two women were injured in efforts to corner the animal.

According to statements, the lion escaped through the carelessness of a discharged caretaker.

## WOOL OVER TWENTY CENTS.

Roswell, N. M., June 11.—Five wool growers today disposed of their clip of 700,000 pounds at private sale. The price is said to be over 20c per pound. It is estimated that about 1,000,000 pounds of wool is still held by the growers of this part of New Mexico.

## DR. CLARK IS A GREAT MAN

HE HAS BEEN A POWERFUL INFLUENCE FOR GOOD.

His Reception Sunday Evening at the Presbyterian Union Service will Be a Notable Affair.

That the coming of Dr. Clark to Ogden Sunday evening will call together a large audience to greet him is evident from the deep interest that is being taken in the union meeting to be held in the First Presbyterian church, Sunday evening, at 8 o'clock. This is a day when denominational unity is being spoken of quite frequently. This feeling of church unity has been greatly fostered by two organizations of Christian fellowship, namely the Y. M. C. A. and the the Christian Endeavor society founded by Dr. Clark. The conventions and work of this society bring together the young people of many denominations. The trustees of the society are chosen from many creeds but each local society is controlled entirely by its own church and denomination.

Dr. Clark has in recent years been a leader as a writer and editor. The "Golden Rule," a weekly publication of the united society, has had a wide circle of readers and through this he has spoken to many thousands of young men and women each week. His books also have been most helpful in stimulating a greater spirit of fellowship, loyalty and service among the younger members of the churches.

In almost every line of religious activity the helpful influence of his life work has acted as a new power and blessing. During the past few years Dr. Clark has made a complete tour of the mission lands and organized the newer young Christians into groups of national societies. India and Japan especially have responded to this work with a marked willingness and the youth of these lands are closely united for service. Recently a book from Dr. Clark's pen upon the "Religious Conditions of South America" has awakened a new interest in that near country.

The services Sunday evening in the First Presbyterian church should be one of the most helpful possible for the young people of our churches. Methods and plans are to the youth in religious service what tools and

equipment are to the mechanic. Not only must there be a desire for work but there must be a conception of just what can be accomplished and to achieve the end desired. The music for the evening will be of the best. There will be an after-meeting in the church parlors to give the workers of the various churches an opportunity to meet Dr. Clark.

## WIRELESS SAVED DAY

Passengers and Crew Aboard Slavonia Were Doomed

Punta Del Gada, Azores, June 12.—Wireless telegraphy played a prominent part in the saving of the crew and passengers of the Cunard Liner Slavonia, which today is a total wreck two miles southwest of Flores Island.

The wireless feat of the steamer Republic was equalled, if not exceeded. It was shortly before midnight of Wednesday, June 9, that the wireless distress signal was received on board the Prinzess Irene. The operator answered and immediately got a message in reply saying the Slavonia was ashore, giving her location and asking the Prinzess Irene to come to her assistance.

At this time, the Prinzess Irene was 180 miles distant from the Slavonia. Her course was changed, and she went ahead full speed, 15 knots an hour, to the designated location, two miles southwest of Flores Island. The Prinzess Irene arrived alongside the Slavonia Thursday afternoon. All Thursday night was taken up with the transfer, and the 110 passengers, men, women and children, were on board by daylight. The transfer was made without a single accident.

Early Friday morning, the Prinzess Irene left the Slavonia for Gibraltar. In the meantime, the wireless calls for help, sent out by the Slavonia, had been heard by the Hamburg-American line steamer Batavia, which also hastened to the scene of the wreck. The intermediate and steamer passengers of the Slavonia were transferred without accident to that vessel.

There remained on board the Slavonia only the members of her crew, but according to the latest information received here, the entire ship's company left the wreck and went ashore at Velasquez on Friday morning. At that time, the Slavonia was full of water, and she was a total wreck.

The Prinzess Irene, which left New York June 5, went out of port with a full passenger list and while the addition of 110 passengers from the Slavonia will crowd her accommodations, the discomfort will not be for long, as she should reach Gibraltar Sunday night or Monday morning.

The Batavia has better accommodations for intermediate and steerage passengers than has the Prinzess Irene, and this is probably why the second and third class passengers were transferred to the Hamburg-American liner.

## CLOSING QUOTATIONS OF WORLD'S MARKETS

LITTLE CHANGE IN THE OPENING PRICES OF STOCKS

New York, June 12.—Opening prices of stocks today were but little changed from last night and the volume of business was small. The tone was hesitating and uncertain with prices ranging in both directions within a narrow range. The copper industrials were somewhat depressed. Kansas City Southern preferred fell 5.8, Vulcan Detinning sold at an advance of 3 and Wabash preferred rose 3.4.

The demand for the Industrials was largely confined to stocks which had not usually prominent. Havana Electric preferred and Vulcan Detinning rose 5, but the latter reacted 2. The preferred also gained 2, United States Reduction 1.4 and Wabash preferred 1.4 and Wabash preferred, Pacific Coast, New Haven, Virginia Carolina Chemical, Westinghouse Electric and American Linsed preferred 1.

Virginia Iron lost 1. Prices sagged before the hour expired.

The market closed irregular. A brisk selling movement caused a general decline. Reading, Chicago & Alton, Amalgamated Copper, Western Union, Consolidated Gas and American Maltine preferred sold 1 under last night, Iowa Central preferred and Colorado Southern 1.5. The reaction in Vulcan Detinning ran to 4 points. Covering of shorts rallied the late market when United States Steel rose a point to 68 1/4, Wabash preferred and Virginia Carolina Chemical rose 1 3/4, Wisconsin Central 1, Brunswick 2, United States Reduction 2.1, the preferred 3.4, National Enameling 2.3.4, Laclede Gas preferred 7.

St. Louis, June 12.—Wool, unchanged; territory and western mediums 24 a29; fine mediums 22a27; fine 16a23.

## Metal Market.

New York, June 12.—Lead, quiet, \$4.35 1/2; copper, quiet, 12 5/8a24; silver 52 5/8.

## SOMNAMBULIST TAKES HIGH DIVE FROM SECOND STORY

Berkeley, Cal., June 11.—A somnambulist took a high dive from a second story window to the ground, 25 feet below, resulted today in the serious injury of Francis R. Steele, editor of the California Occident, a university publication, and a member of the track squad. A wire fence on which he landed broke the fall, which would otherwise have proved fatal in all probability. His injuries consist of a fractured ankle, painful lacerations about the breast, where he struck the fence, and two missing teeth.

On recovering consciousness, Steele said that he dreamed he was diving into the ocean.
